Comptroller

Revised Table of Organization, Southeastern  
Europe Division, DD/P - Budget and Finance Positions

25X1A6a 1. A review of the Budget and Finance positions listed on the [REDACTED] T/O indicates that the grades are out of balance. It is the opinion of the Comptroller's Office that a more logical lineup of positions by grades would be as follows:

GS-13  
GS-12  
GS-11  
GS-9  
GS-9  
GS-7

25X1A6a 2. If the duties and responsibilities are not properly distributed as to warrant the establishment of a Grade GS-11 which would provide for the normal progression from GS-9 to GS-11 and thence to GS-12, I certainly would recommend that the new additional position be established at GS-7. I just can't conceive of the budget and finance responsibilities being so apportioned as to require four GS-9 positions in such a small staff. If it is proper, then we should take a look at all the other overseas stations staffing patterns having comparable staffs. It may be possible that all the others are out of line and that [REDACTED] is the only station with the proper staffing pattern.
